Number of Streams with minimum instream flows set by rule:	
Number with permanent (12 month) stream gauges:	
• Date on which minimum instream flows were established (priority date): 10 March 1976	
Number where flows were monitored in 2002:	
Number of minimum flows always met in 2002	
(of 21 monitored streams):	
• Number of actions taken to enforce instream flow rights (1976 to present): none	
Number of water rights (permits and certificates)*:	
Number senior to minimum instream flows:	
Number junior to minimum instream flows:	
• Surface water rights:	
• Ground water rights:	
Agricultural water rights:	
Total instantaneous withdrawals authorized (all rights, cubic feet per second)*: 3000/1800**	
• Total surface water withdrawals authorized (cfs):	
• Total ground water withdrawals authorized (cfs):	
• Total agricultural authorized (sw & gw, cfs):	
Number of water right claims*:	
Number of claims that state a quantity:	
Number of claims that do not state a quantity: over 8300	
CFS claimed by the (<100) claims with a quantity:
